

4 - Guitar Worship - 4

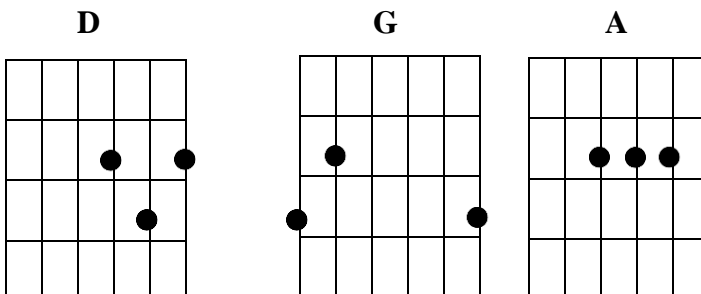

Lesson 4 – You will practice going from one chord to another while you explore more songs played in the key of D.

- Place your fingers in the position of the D chord. Strum it and make sure it sounds good and clear. Stay close to the fret with your fingers. Strum each string individually and again check for clarity of sound for each individual string.
Tip: For every chord place your thumb in a comfortable position and turn your hand to be able to press the strings.
Tip: Don't cramp your hand, arm or wrist. The more relaxed you can keep your muscles, the easier it gets to move the position of your hand and fingers. And you will not get that tired.
- Next, place your fingers in the position of the G chord. Strum it and again make sure it sounds good and clear.
- Practice switching back and forth between the chords of D and G.
- Then practice switching between the chord of D and the chord of A in a regular rhythm.
- And practice the same between the chord of A and the chord of G.
