

10 – Guitar Worship - 10

Lesson 10 – The key of E and more chord extensions.

- Learn the song.
- Make sure all your chords sound clear and you can hear ALL strings.
- Keep your arm, wrist and hand muscles relaxed and don't get into a cramp.
- If there is any finger that can slide over the string when you change chords, slide it and don't lift it up. It will support and guide your other fingers.
- This new song 'there's a Wind Blowing', we will play without the extra chords of A2, A4, D2, D4 and E7 and we will play the song with it.
- On the A4 and D4 chord, just leaves your fingers 1, 2 and 3 in place and add your fourth finger.
- Change the chord precisely over the word where it is.
- Take notice of the different sound for an A2 and an A4 and pay attention to the difference between a D2 and a D4. That way you can start using these chord extensions on your own and apply them when you desire them and think it sounds good.
- There are no rules for these extensions to the chords and you can use them at your own discretion.

THE KEY OF A

THERE'S A WIND BLOWING
