18 - Guitar Worship - 18

Note:

All these strumming patterns are meant for you to understand that you can play around with the way you strum within the song itself, that you are free to strum any way you feel Led and that there are different ways to strum at different times.

I have to admit that every time I play the same song I strum differently.

Most important; If you enjoy your worship and you come into the Presence of the Lord without having to think about your guitar playing, you made it to be a good worshipper and a good guitar player!
